

## CHURCH OF ST HARALAMBOS CENTRAL COAST

The building of the Church of St Haralambos at 4 Fleet Close, Tuggerah, (which runs off Reliance Drive), is progressing well. The photos indicate that the building project is well advanced. Another photo shows how the Church will look in the near future, once completed.

Functions are now being held in the building called "The Omega Centre".

Services will be held inside the church in the first half of 2015. The Saint Haralambos Committee will inform parishioners and other interested churchgoers as soon as a definite date is arrived at.

Dates set down for Services during 2014, are subject to the Archdiocese being able to supply Saint Haralambos with Priests on these days.

The dates are: November 30, 2014 December 14, 2014 and December 28, 2014.

The Afternoon Greek Language School is progressing well, and the numbers are increasing. For information about the School, call: 0419 158 687 or 4389 2420 or 0410 335 555.

It is through the patience, hard work, and constant fund-raising activity of the Committee, that Saint Haralambos is so near to completion.

THE EXECUTIVE COMMITTEE deserve the most profound congratulations:

Dr Tasos Fermanis MBBS UNSW. President

Jim Dimis. 1st Vice president, Design & Building of Church

& Hall

## ***From the Parliament of Australia Senate web-site: -***

*“Speaking in the Australian Senate chamber, in July 2014, Labor Senator for NSW, Deborah O’Neill, revealed how she first made contact with the Church committee in Tuggerah, in February 2014, “on the occasion of the Saint Haralambos feast day, which was on the concrete that forms part of the church that is now under construction in the suburb of Tuggerah at the northern end of the Central Coast.*

*The Greek Orthodox community has been working for years to plan and save for this brand new church. It culminated on that day in the laying of the foundation stone on what is to be the floor of the church. The parishioners and worshippers packed a big tent. Outside, all the food was being prepared for the community celebration. Hundreds of people packed the site to celebrate this great day of achievement; and the community that came from Sydney to support this community is acknowledged.*

*I want to take this opportunity to formally acknowledge the amazing work of the members of this committee and the many others who have helped them to achieve this very holy goal—particularly, President, Dr Tas Fermanis and senior vice-president, and builder, Mr Jim Dimis. They have shown great vision and leadership in bringing this community together around this tremendous project”.*
